R: \$3 NR: \$6

# Rec at the Pool

*During Friday Free Swim*

Join us every Friday for Rec at the Pool, a 3-hour recreation program packed with games, activities, and social time for all participants!

Each week features a mix of high-energy water games, themed activities, and relaxed free swim, all led by our recreation staff.

Participants will kick things off with interactive group games like Sharks & Minnows, relay races, and diving challenges. The fun continues with a rotating weekly theme—such as Pool Olympics, Pirate Day, Beach Party, or Color Wars—bringing new and exciting activities each session. The program wraps up with music, free swim, and lighthearted contests like cannonball competitions and staff vs. participant games.

This program is designed to encourage active play, teamwork, and social interaction in a safe and supervised pool environment. Whether you're looking to compete, make friends, or just cool off, there's something for everyone!

## Jeff Ellis Swim Lessons

Jeff Ellis Swimming (JES), has been going strong for more than 15 years, providing a high-quality, fun, engaging way for aquatic facility operators to provide local community swim lessons.

Program coordinators are trained and certified to lead the JES program at their local aquatic facilities.

Swimming Instructors conduct Learn-to-Swim lessons at their aquatic facilities under the direction of the Program Coordinators.

# Ellis & Associates

*The World Leader in Aquatic Safety since 1983*

Ellis & Associates partners with Clients from around the world to provide a comprehensive suite of safety and operational solutions for any type of aquatic facility. Their innovative and proactive approach elevates aquatic safety for all, driving their unified mission of zero drownings.

Their proactive & professional approach to preventive lifeguarding has established new “Standards of Care” for the industry. ILTP® is a unique, comprehensive lifeguard training program; the content includes Health Care Provider level CPR, AED training, Emergency Oxygen Administration training, and First Aid, along with state-of-the-art rescue techniques.

Becoming an ILTP® Training Center entitles aquatic facility Owner/Operators to have select members of their team participate in official ILTP® Lifeguard Instructor training courses.

These courses provide the critical Lifeguard Instructor training and mandatory Licensing necessary for them to then be able to conduct their own authorized ILTP® Lifeguard courses and/or E&A Safety & Health courses, on-site and as needed, and without participation in the risk management services mentioned above; affording Owners/Operators the ability to integrate ILTP® trained Lifeguards into their facilities existing operational practices.
